

For Immediate Release

NorthLANs Alliance Hosts Minnesota Shopping Center Association's Members Only Site

Shakopee MN (January 7, 2004)

Minnesota based Internet Web Hosting Company NorthLANs Alliance is proud to announce the release of the members only area for the Minnesota Shopping Center Association. NorthLANs is providing web site and database hosting services for members with added security of a signed SSL certificate. NorthLANs Alliance partner RTB Systems developed the site.

The Minnesota Shopping Center Association (MSCA) is a nonprofit trade association that was initiated in 1988. MSCA is the largest statewide organization devoted solely to the retail real estate industry. With over 270 companies and 600 members, the association represents developers, shopping center owners, brokers, property managers, retailers, attorneys, architects and all professionals serving the Minnesota real estate industry.

Together the members of MSCA own, operate and manage over 50 million square feet of shopping centers in our trade area. MSCA offers its member's excellent educational and networking opportunities, market research and trends, as well as participation in governmental affairs.

NorthLANs Alliance is a full service Internet Hosting Provider. Services include web site hosting and design, database hosting and development, Internet domain name resolution, FTP file access, and e-mail services. For additional information please direct questions to sales@northlans.com or visit www.northlans.com
